

INVICTUS MUN 2026

Official Delegate & Participant Registration Handbook

www.invictusmun.com

Welcome to the digital portal guide for **INVICTUS Model United Nations 2026**. This participant handbook has been generated with optimized high-contrast elements to ensure complete legibility. Follow this blueprint to successfully navigate your registration track, payment workflows, preference assignments, live dashboard, and day-1 venue check-in.

1. SELECTING YOUR REGISTRATION TRACK

To begin registration, access the launchpad via our main web link at www.invictusmun.com. The interface presents two explicit tracks structured by delegation configuration:

INDIVIDUAL DELEGATE

Apply independently to represent a single country/portfolio in your preferred committee matrix.

Starting from ₹2,100

DELEGATION / GROUP

Register an institutional team of 10+ members managed under a coordinating teacher or head delegate.

Starting from ₹1,900 / person

2. PREFERENCE MAPPING & TRANSACTION UPLOADS

After choosing your registration path, fill out the database collection form fields:

- **Profile Metadata:** Input your legal full name, contact information (primary email and mobile/WhatsApp numbers), academic institution name, age, and logistics preferences.
- **Portfolio & Committee Options:** Map out your exact committee preferences (Preference 1 & Preference 2) alongside your requested country roles or specialized tracking seats (e.g., *IP - Journalism*).

- **UPI Payment Verification:** Clear the calculated registration fees by scanning the displayed payment gateway QR code via any standard financial application (GPay, PhonePe, Paytm, or generic UPI tools). Take a high-resolution screenshot of the transaction success receipt and upload it to the Payment Screenshot Upload section before hitting final submission.

3. YOUR PRIVATE DELEGATE DASHBOARD COMMAND CENTRE

Once your submission logs hit the server, your profile credentials become active. Go to the **Delegate Login** screen and input your matching registered email address and phone number to open your private dashboard command centre. Your lifecycle maps transparently across 5 real-time stages:

This tracker monitors background admin activities. When back-end managers verify your uploaded payment screenshot, your profile drops a designated **Delegate ID** (e.g., INV-2026-192), unlocking your confirmed allocations, country seats, and study resources.

4. PREPARING FOR CONFERENCE: STUDY GUIDES & BROADCASTS

Your dashboard acts as your main communication link to the Executive Board during the pre-conference timeline:

- **Background Guides & ROPs:** Committee study guides (\$BG's\$), specialized preparation files, and Rules of Procedure populate directly under your dashboard resources tab as soon as they are uploaded.
- **Live Executive Alerts:** Urgent schedule changes, dress code policies, and localized committee updates flash directly inside your dashboard notifications log.

5. CHECK-IN VERIFICATION & DOCUMENT EXTRACTION

When the conference transitions to live venue sessions, your portal handles credentials and accolades securely:

DAY 1 PHYSICAL DESK CHECK-IN MANDATE

Upon arrival at the venue registration desk on Day 1, log into your portal and display your high-contrast, unique ****Check-In QR Pass**** to the desk staff. The staff member will scan your digital pass. For security confirmation, the portal forces an administrative email-OTP verification layer to officially check you into the conference matrix.

- **Dashboard Awards Section:** If honored by the Secretariat or Executive Board at the closing ceremony (e.g., *Best Delegate*, *High Commendation*, *Special Mention*), the award title displays instantly as a digital badge inside your profile login room.
- **Certificate Extraction:** Your official participation certificate completely unlocks under the certificates module as soon as your Day 1 check-in status is confirmed on-site. Download your high-resolution final document PDF directly from your dashboard or access the download link sent directly to your email box.
